DumbRoof

The agent-native vertical for Agentic.market

Tom Kovack Jr · Founder & CEO · April 2026

The 72-Hour Headless Thesis

> **Marc Benioff** *(Apr 20) — "Welcome Salesforce Headless 360: No Browser Required. Our API is the UI."*

> **Greg Isenberg** *(Apr 22) — "There's $1T up for grabs for agent-first startups… SaaS becomes the dumb backend. The startup IS the agent."*

> **Brian Armstrong** *(Apr 20) — "For the agentic economy to overtake the human economy, agents need a way to discover services."*

Three signals. Same week. Same shift.

The Vertical

Roofing Insurance Supplements

Metric	Value
U.S. residential roofing market	**$50B/yr**
Annual underpaid claims	**$5B+**
Licensed U.S. roofing contractors	**117,000+**
Claims underpaid on first scope	**~80%**
Agent-native solutions in production today	**0** (until DumbRoof)

A hidden TAM most Silicon Valley investors haven't seen.

What We Built: Richard

Tools registered	**43**
Architecture	MCP-native from day one
Data warehouse	**51 tables · 123,942 rows**
Claims processed	**117**
RCV through platform	**$6.9M**

Richard is not a chatbot bolted onto a SaaS.
Richard **is** the SaaS — chat, email, API, all routed to the same agent.

Agent-Native (Not Retrofit)

	Traditional roofing SaaS	DumbRoof
Primary surface	Web dashboard	Agent (chat / email / API)
Per-feature build	Hand-coded UI	Agent picks the right tool
New integrations	Months of dev	One MCP wrapper
State across sessions	Session-scoped	Persistent agent memory
User onboarding	Multi-step wizard	"Connect your Gmail" → done
Cost to scale	Linear in headcount	Linear in API calls

We were building this **before** the thesis tweets landed.

x402 Fit: Public Richard API

```
caller → POST /v1/agent/process-claim
server → 402 Payment Required (x402 challenge)
caller → signs USDC payment via agentic-wallet-skill
caller → retries with X-Payment header
server → 202 Accepted with job_id
caller → polls → 200 with 5-PDF claim package
```

Endpoint	Price
`process-claim`	$50
`draft-supplement`	$5
`annotate-photo`	$0.50
`pricing` / `job-poll`	Free

Replay-protected, refund-on-failure, on-chain auditable.

Traction

117

claims processed end-to-end

$2.0M+

supplements awarded YTD

12

wins · 48-hour avg turnaround

Every number auditable in our Supabase warehouse.

IP & Moat

- **USPTO provisional** filed 2026-02-26 — 66 claims, 18 figures
- **Non-provisional due** 2027-02-26 (10-month window)
- **Trademark:** dumbroof.ai filed/pending
- **Entity:** Dumb Roof Technologies LLC (Wyoming, EIN 41-4822546)
- **Operator moat:** CEO is a 21-year operating roofer (USA Roof Masters)

Three layers: legal · data · operational.
The hardest one to copy is the operator one.

The Ask

✅ **Featured launch listing** on Agentic.market
✅ **Joint case study + blog post** — "The first paying agent-vertical in production"
✅ **Tweet from Brian on launch day** — co-announce with @dumbroofai

Bonus track: intro to Coinbase Ventures for a $5M seed conversation.

What We Offer

📊 **Real-world case study** — first paying agent-to-agent commerce in production

🎙️ **Podcast appearance** — Tom on Greg Isenberg's Startup Ideas Pod (already targeted) + any Coinbase show

🤝 **90-day commitment** — onboard 50 caller-agents (contractor-CRM agents using Richard via x402)

🔓 **First-look data access** — joint research from our 51-table warehouse on agentic commerce patterns

Team

- **Tom Kovack Jr.** — Founder & CEO. 21 years operating USA Roof Masters. Built Richard solo.
- **Marcus Valeriano** — COO candidate. McKinsey + Johns Hopkins.
- **Jared Ferreira** — CTO candidate. Meta engineer. Distributed systems.

Advisory board, additional hires, Coinbase Ventures relationship — to be confirmed post-Series-Seed.

Let's launch together.

We are the agent-native vertical you said you were looking for.
